

S.O.B.

SPECIAL OPERATIONS BUNKER

The S.O.B. (Special Operation Bunker) can best be described as a portable rolling rifle grade ballistic shield. Each S.O.B. is a freestanding shield that offers considerable protection while not burdening the operator since it is not carried to position.

They can be utilized for a variety of applications that include barricaded suspects, critical tactical negotiations, hostage rescue operations, first responders to active shooters, officer and citizen rescues, sniper deployment and E.O.D. response teams. The capabilities of these S.O.B.s are endless.

In the Little S.O.B. and the Little Double S.O.B. the individual shields that comprise the rifle grade (N.I.J. III+) ballistics can be removed from the frame and used individually as N.I.J. IIIA shields. The panels may be utilized as separate ballistic shields or combined to form a long ballistic wall.

The Little S.O.B.

75" H. 22" W. rolling rifle or handgun rated shield

The Little Double S.O.B.

70" H. x 44" W. rolling rifle or handgun rated shield

- Rifle or handgun rated protection. panel options are:
 - N.I.J. Level IIIA (.44 magnum) Panels
